Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

1

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

🕒 5 minutes

PROBLEM

How might we provide an interactive dashboard to analyze cosmetic products, brands, prices, categories, and skin-type suitability for better business decision-making?

Key rules of brainstorming

To run a smooth and productive session

1

Stay in topic.

2

Encourage wild ideas.

3

Defer judgment.

4

Listen to others.

5

Go for volume.

6

If possible, be visual.

Step-2: Brainstorm, Idea Listing and Grouping

2

Brainstorm

Write down any ideas that come to mind that address your problem statement.

🕒 10 minutes

TIP

You can select a sticky note and hit the pencil [switch to sketch] icon to start drawing!

Person 1

Analyze cosmetic products by category.	Compare cosmetic brands based on product count.	Display Top 10 cosmetic brands.	Analyze products suitable for different skin types.	Compare product prices and rankings.
Create KPI cards for total products, brands, and skin types.	Add interactive filters for Brand and Category.	Create an interactive dashboard for business insights.	Develop a story to present key findings.	Identify products with the highest rankings.

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

🕒 20 minutes

TIP

Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mural.

Group 1 – Product Analysis

Top 10 brands	Category-wise product distribution
Brand-wise product count	Top 10 products

Group 2 – Price Analysis

Average price by brand	Price vs. Rank analysis
------------------------	-------------------------

Group 4 – Dashboard & Reporting

KPI Cards	Interactive Filters
Story Design	Business Insights Dashboard

Group 3 – Skin Type Analysis

Products suitable for all skin types	Combination skin product distribution
Total skin type count	

Step-3: Idea Prioritization

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

🕒 20 minutes

TIP

Participants can use their cursors to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the laser pointer holding the **H key** on the keyboard.

Importance

If each of these tasks could get done without any difficulty or cost, which would have the most positive impact?

Feasibility

Regardless of their importance, which tasks are more feasible than others? (Cost, time, effort, complexity, etc.)

After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.
